PROFESSIONAL SUMMARY

Full-Stack Developer with 1.8+ years of experience building production-grade web applications using React.js, Next.js, Express.js, and Prisma. Contributed to 30+ projects spanning ERP, HRMS, and e-commerce platforms, primarily as a front-end developer, including 10+ projects delivered end-to-end as a full-stack developer using MERN, Next.js, Express, and CodeIgniter. Skilled in building scalable monorepo architectures, REST APIs, and responsive, performance-optimized UIs.

EXPERIENCE

Web Designer / Front-End Developer | QuickenSol IT Solutions LLP

Oct 2024 – Jun 2026

Pune, Maharashtra, India

- Contributed to 30+ client projects spanning ERP, HRMS, and e-commerce platforms, primarily as front-end developer; delivered 10+ of these end-to-end as full-stack using MERN, Next.js, Express, and CodeIgniter (CI3).
- Designed and implemented CRM, ERP, admin dashboards, vendor management systems, and business platforms with responsive UI/UX and performance-focused architecture using React.js, Next.js, Express.js, and Prisma.
- Built reusable React components and modular frontend architectures using Hooks, Context API, and Tailwind CSS to improve scalability, state management, and cross-browser responsiveness.
- Worked in a Turborepo monorepo architecture to manage scalable Next.js, Express.js, and Prisma-based applications with shared packages and centralized APIs.
- Developed secure REST APIs, JWT/OAuth-based authentication systems, role-based access control, and CRUD operations using Express.js, Prisma ORM, MongoDB, SQL, Firebase, PHP, and MySQL.
- Built custom WordPress solutions including themes, plugins, custom post types, and SEO-friendly business websites, and integrated third-party APIs, payment gateways, and real-time chat features.
- Optimized applications for SEO, page speed, Core Web Vitals, and accessibility; handled debugging, deployment, and hosting using Git, GitHub, Linux, and cPanel in agile workflows.

Full Stack Web Developer Intern | Fulcrum Resources Infinity Pvt Ltd

Jun 2024 – Oct 2024

Pune, Maharashtra, India

- Designed, developed, and maintained responsive websites and web applications using HTML5, CSS3, JavaScript, and modern JavaScript frameworks (MERN stack).

SKILLS

Programming Languages: JavaScript (ES6+), PHP, jQuery, HTML, CSS

Libraries / Frameworks: React.js, Next.js, Express.js, Node.js, RESTful APIs, CodeIgniter (CI3), WordPress, Prisma, Turborepo, Zustand, Tailwind CSS, Redux Toolkit, Jest and React Testing Library

Tools / Platforms: Git, GitHub, VS Code, Linux, cPanel, Firebase, AWS, Docker, CI/CD

Databases: MongoDB, SQL (MySQL), PostgreSQL

PROJECTS

University Internal Chat Platform | Next.js, Firebase, Real-Time Messaging

- Built a WhatsApp-style internal communication application for a university client, supporting 5,000+ active users with real-time messaging, media sharing, and core chat features.
- Architected the application using Next.js and Firebase for real-time data sync, focusing on scalability and reliability under concurrent user load.

Lead Management ERP for Real Estate Brokers | Next.js, Express.js, Prisma, MySQL

- Built a subscription-based lead marketplace ERP for real estate brokers (similar to NoBroker/MagicBricks for brokers), including broker registration, profiles, and lead discovery.
- Designed a credit-based subscription and payment system where brokers purchase credits to unlock lead contact details, including subscription management and payment integration.
- Built REST APIs powering a companion Flutter mobile app, plus bulk lead import from Excel/Google Sheets, automated new-lead alerts, admin reporting, activity log tracking and segmented push notifications targeted by user city, state, and account status.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science

2020 – 2024

Zeal College of Engineering and Research, Pune, Maharashtra, India | CGPA: 7.15
